Executive for Administration & Management

10 March 1948

Assistant Director for Operations

Increase in FBIS Hawaii Bureau Personnel Ceiling

1. The FBIS Table of Organization, dated 10 April 1947, for the Hawaii Bureau, established a total of 48 positions. Since that date additions and deletions from this Table of Organization net an increase of three making the present T/O for this Bureau provide for 51 employees.

2. Due to the recent authority granted FBIS to hire locally for the Hawaii Bureau, recruiting is progressing at a much faster rate than had been previously anticipated. The personnel ceiling of 41 as established 10 February 1948, in memorandum to the Assistant Director for Operations from the Executive for A & M, Subject: Table of Organization and Personnel Ceilings, Foreign Broadcast Information Branch, Office of Operations, is not adequate to cover present commitments.

3. In order to provide sufficient ceiling for personnel already recruited but not actually on duty, and for positions which it is desired to fill as soon as competent personnel can be recruited, it is requested that the FBIS Field U. S. Territory Personnel Ceiling be increased to 51.
